Our expert team makes use of modern techniques to maintain our vision of a holistic approach to Sustainable Environmental Management. The cornerstone of our success lies in strong personal relationships with government, business associates, our neighbors and other community members built on science, trust and harmony.

We assist our clients balancing the act to Develop and Avoid potential harm to the environment, to ensure our future generations.

## COMPANY FOUNDATION

Kush Environmental Consultant was established in **2021** Even though the company was only born then, its experts have more than 3 years combined experience. This means that Kush Environmental Consultant has a strong foundation in professional service and experience in the environmental field. Our highly qualified and experienced team work as one to make this company successful.

Humanity's activities have had an enormous impact on the global environment, and at Kush Environmental Consultant, we believe that sound environmental management is the key to creating sustainability and harmony between everything that calls the Earth home. In the industry and trade business, the responsibility to manage and minimize companies' impacts on the environment is an incredibly important one. International agreements, consumer activism, and new laws have emphasized this responsibility.

Our own National legislation places the "duty of care" responsibility in terms of the environment on every person. This means businesses should pro-actively manage their environmental risk. Kush Environmental Consultant has committed itself to providing cutting-edge, innovative and excellent environmental management solutions and services to our clients, backed by a professional, brilliant team of environmental scientists and project managers.
